Kevin and Alex,

Please find attached draft joint motions for entry of the DO, DCO, and PO, along with clean copies of those proposed orders. We accepted all of AT&T's edits with the one exception of changing 55 to 60, as discussed in our other thread confirming that we will start the case narrowing conversation early next year. Please let us know whether AT&T has any proposed edits and whose signature we should use for AT&T.
